Spring 2018 Neurobiology Major Courses

REQUIRED NEUROSCIENCE COURSES
  Behavioral Neuroscience: PSYCH 454
  Neuroscience Seminar: ZOOLOGY 500

DISTRIBUTED NEUROSCIENCE COURSES
  BIOCHEM 501 - Introduction to Biochemistry*
  BIOCHEM 508 – General Biochemistry II*
  CS&D 210 - Neural Basis of Communication
  ED PSYCH 326 - Mind, Brain and Education
  KINES 531 - Neural Control of Movement
  NTP 655 - Modeling Neurodevelopmental Disease
  PHYSIOL 335 – Physiology*
  PHYSIOL 435 – Fundamentals of Human Physiology*
  PSYCH 406 - Psychology of Perception
  PSYCH 513 - Hormones, Brain, and Behavior
  PSYCH 601 - Topic: Epigenetics and the Brain
  PSYCH 611 - Systems Neuroscience
  ZOOLOGY 625 - Development of the Nervous System

LAB CLASSES
  ZOOLOGY 604 - Computer-based Gene and Disease/Disorder Research Lab
  ZOOLOGY 616 - Lab Course in Neurobiology & Behavior

RESEARCH
  Psych 621
  699

Please, check prerequisites before attempting to enroll in any course.
